

# CV & Resume

10+ years building Rails applications. Developer, builder, problem-solver.

## # About

Full-stack developer. 10+ years of Rails. I build web applications from scratch. Blockchain, real-time systems, AI automation.

Shipped platforms serving millions of users. Managed large communities. Built production systems that run for years with minimal maintenance. Right now I'm focused on Claude AI integration and content pipelines.

## # Experience

### ○ Senior Rails Backend Developer
